# Determining an Appropriate Viewing Window for Graphing Lines

Graph each line by finding an appropriate viewing window which includes the *x*- and *y*-intercepts.
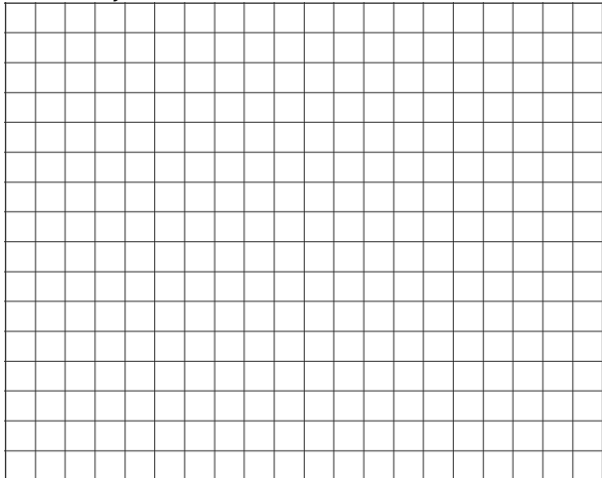

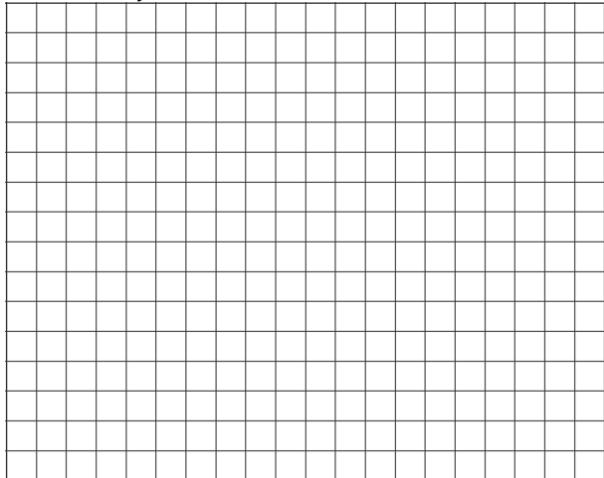

1. $2x + 4y = 96$

2. $3x - y = 42$

3. $x + 3y = 75$

4. $2x - 8y = 120$

# Determining an Appropriate Viewing Window for Graphing Lines
ANSWERS MAY VARY

Graph each line by finding an appropriate viewing window which includes the *x*- and *y*-intercepts.

1. $2x + 4y = 96$	2. $3x - y = 42$

3. $x + 3y = 75$	4. $2x - 8y = 120$
